DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Medoff et al (USPN 5,973,035).

Medoff anticipates an extruded wood-plastic profile (col.3, 1.16-17) comprising a wood component (col.2, 1.25-26), a plastic component that is intermixed with said wood component to form a profile body (col.1, 1.4-5), and a bonding or coupling agent, improving the adherence, that is a thermoplastic component with at least one bonding site (col.2, 1.31-34). Note the effective filing date of the current application is April 12, 2001, which is the filing date of application 09/833,470. The other applications that the current application is a continuation-in-part of do not teach the bonding agent for improving the adherence between said wood component and said plastic component

so the current claim in the current application does not receive priority back to the dates of those applications.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Beshay (USPN 4,717,742); Muller (USPN 5,851,469); Malucelli et al (USPN 5,574,094); Kokta (USPN 4,791,020); Raj et al (USPN 5,120,776); Evans (USPN 5,709,933); Ryan (USPN 5,876,649).
